Premium tax credits can make coverage affordable for those with incomes from 100% to 400% of poverty - (\$11,490 for an individual or \$19,530 [100% fpl] for a family of three.)

Here is one example:

People with incomes below 250% FPL who buy a Silver Plan may also get help with out-of-pocket costs.

**The Johnsons:
Family of three**

**Annual income
\$29,000 (about 150% of poverty)**

Estimated marketplace premium:
\$8,250*

Price for the Johnsons:

An income-based tax credit will ensure that the Johnsons pay only 4 percent of their income, approximately \$1,172 (\$98 a month), for coverage.

Size of tax credit:

The remainder of the premium will be covered by a tax credit of \$7,078.
